- Creating UX using the Figma.
- Design Responsive pages by using Angular 14, and HTML5, CSS3, SASS
- Created the Scube Business Cards company product website using Angular 14 for enhanced server-side rendering, allowing users to order cards and developed an Angular 14 admin panel for internal users to process orders. Provided robust backend APIs for the Scube mobile app and maintained SEO meta data in web application for rich results.
- Integrated secure payment gateways including **Razorpay** for India and **PayPal** and **Stripe** for international payments, ensuring seamless transaction processes.
- Written the Unit test case using the jasmine & karma
- Written the E2E Testing, Implement Restful APIs to manipulate data.

Project 4: Scube Smart business and access cards for Deloitte Shared Services India LLP

Role : Senior Front-end Developer

Technologies Used: : Nodejs, Reactjs, Typescript, Tailwind CSS, MSSQL Server

Summary:

- Implemented SSO login with Microsoft Outlook
- Implemented payload encryption to ensure secure data transmission between client and server

Project 5: Scube Smart business and access cards for Axis Mutual Fund

Role : Senior Front-end Developer

Technologies Used: : Nodejs, Reactjs, Typescript, Tailwind CSS, MSSQL Server

Summary:

- Implemented SSO login with Microsoft Outlook
- Implemented payload encryption to ensure secure data transmission between client and server
- Customized the software for managing employees and distributors, and generating comprehensive reports and implemented statistics logs and users actions as per client requirement.

Project 6: Eternalmark and ERP <https://eternalmark.com>

Role : Senior Front-end Developer

Technologies Used: Nodejs, MySql, Angular 12, Typescript, Css, Tailwind css, Bootstrap

Summary:

- Creating UX using the Figma.
- Design Responsive pages by using Angular 12, and HTML5, CSS3, SASS
- Developed the web application using Angular SSR and Tailwind CSS. and backend as nodejs and maintained Google SEO meta data in website for SEO optimisation
- Managed an ERP project for the client to handle products, sales orders (SO), purchase orders (PO), invoices, and additional features. Implement Restful APIs to manipulate data.

Project 7: Anytimediesel & Anytimediesel Admin Panel <https://anytimediesel.com>

Role : Senior Front-end Developer

Technologies Used: Nodejs, MySql, Angular 11, Typescript, Css, Tailwind css, Bootstrap

Summary:

- Creating UX using the Figma.
- Design Responsive pages by using Angular 11, and HTML5, CSS3, SASS, Tailwind css
- Implement Restful APIs to manipulate data.

Project 8: Virupaksha & Virupaksha Admin Panel, <https://virupaksha.scube.me>

Role : Senior Front-end Developer

Technologies Used: Nodejs, Reactjs, Typescript, Tailwind CSS, MySQL

Summary:

- Creating UX using the Figma.
- Design Responsive pages by using Reactjs, and HTML5, CSS3, SASS, Tailwind css
- Implement Restful APIs to manipulate data.

Project 9: Yantra live Admin Panel, <https://www.yantralive.com>

Role : Senior Front-end Developer

Technologies Used: Nodejs, MySql, Angular 6, Typescript, Css, Tailwind css, Bootstrap

Summary:

- Creating UX using the Figma.
- Design Responsive pages by using Angular 6, and HTML5, CSS3, SASS, Tailwind css
- Implement Restful APIs to manipulate data.

Project 10: Mycotra & Mycotra Admin Panel <https://www.mycotra.com>

Role : Front-end Developer

Technologies Used: Angular 2, Typescript, Css, Bootstrap

Summary:

- Creating UX using the Figma.
- Design Responsive pages by using Angular 2, and HTML, CSS
- Implement Restful APIs to manipulate data.

Project 11: Nishpakshbaat <https://nishpakshbaat.com/>

Role : Front-end Developer

Technologies Used: WordPress, JavaScript.

Summary:

- The project Online News Portal aims at establishing a complete portal for providing news. News Publishing Portal System also manages the Latest Post's details online. Media details, Advertisement details, News. It tracks all the information of Types, Latest Posts, Media Manage the information of Types Shows the information and description of the News.
- Setup WordPress, install plugin.
- Deploy godaddy Server.
